- Personal First Aid Kit (optional)
- Camera (optional)
- Sewing Kit (optional)
- Compass (optional)
- Mirror (optional)
- Crazy Outfits for Special camp activities
- Smiling faces

Packing – some boys will pack everything in their backpacks, but some have started to use trunks. You might be able to find black plastic trunks from the Container Store that have wheels, not very big, which fit under the cots. They make stuff a lot easier to get to and keep organized and dry.

Food – it's important to note that food and snacks should not be kept in the tent, trunk, or backpack. The area is known for Black Bears, skunks and raccoons that will invade any area in search of food. We do have a bear bag that is hung from a tree when we're not in camp, but for the most part snacks are really not needed by the boys since the meals are complete and they buy some drinks and snacks at the trading post. In short, the less food in camp the better. If it is anyone's birthday during the week at camp, please let us know. If parents would like, we can go out and get a cake to have at our camp site. If this is desired, please provide one of the adults sufficient money to purchase a cake and supplies.

Bugs are an issue – mosquitoes, ticks, etc. Everyone should have sufficient supply of appropriate repellent.

TROOP CHECKLIST

- Gateway staves and ropes
- Gateway sign
- Bulletin Board
- Troop roster
- Blank duty rosters
